*****the members would refer you to an abstract from the D&A statement, where it states that such 6 dwellings are designed for residents who will use the local transport services with no car ownership. Previous approved applications did not raise this point for what were then commercial usages.

AWDM/1202/21 – Gge Block North of St. Peters Place, Western Road, Sompting

In general, members feel that the proposed design has been dealt with sympathetically in relation to the existing approval for dwelling space & is in fact, less mass with ridge heights not overbearing to the existing accommodation block. However it is felt that some cosmetic changes of lightening/colour of cladding finishes would be an even greater improvement.

APPROVE
