This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals.

I refer to your consultation in respect of the above planning application and would provide the following comments.

This application is re-submission of AWDM/2003/22 and seeks an approval for construction of single storey rear extension; render and cladding to West elevation and partial removal of the existing garage. The proposal does not include any alterations to the scheme that would impact previous highways comments, therefore they would still be considered relevant.
