Dear Rebecca

Thank you for clarifying.

Our main concern here is whether this additional height above the fence line is going to affect our sunlight as the proposed position of the Summerhouse is adjacent to our garden. We feel that 50% is a considerable increase in height.

[redacted]

Whilst we appreciate the neighbour consultation period has finished, we are probably the neighbours to be most affected by these plans due to it's position, and due to being temporarily out of the country have not actually been consulted on this matter.

Please could you confirm whether this email serves as a further letter of representation?

Many thanks

Lloyd and Leah
