Dear Sirs,

Re: Planning Authority 3 Buckingham Avenue, Shoreham By Sea.

We refer to the objections we raised in respect of the south facing skylights in the above property.

It is our understanding from discussions with a member of the planning department that the recommendations of the planning officer were upheld and permission approved on that basis. Specifically the easternmost rooflight on the southern aspect should be "permanently fixed shut and obscure glazed". This was to be within one month of the granting of planning permission.

Unfortunately this is not the case. The window remains unfixed, with normal glacing and open almost everyday.

We would be grateful for precise confirmation of the position on this matter, from the planning departments position, and what action can be taken to ensure compliance with the planning authority.

Thank you for your assistance.
