Dear Mr.Barnett,

28, The Meadway, Shoreham-by-sea ADC/0057/09

In accordance with Condition 08 of the Planning Permission ref ADC/0057/09 dated 1st April 2009 I write to submit the detailed design of the 2no. Privacy screens that are to be fitted to the west and east sides of the Roof Garden for your approval.

The screens are to be 1700mm high above the finished deck of the Roof Garden. The frame will be of 40mm x 40mm stainless steel hollow section. The frames will be glazed with Pilkingtons Stippolyte Laminated safety glass infills (level 4 obscuring) bedded in metal grade glazing compound secured in stainless steel beads which will be drilled, tapped and screwed to the frames. Privacy will be maintained where the sloping frame at the rear (north) project beyond the line of the hip tiles to the false hip by means of a small triangular infill of stainless steel plate that will be secured to the underside of the sloping frame (see drawing no. 2904 / 111).

I would confirm your kind agreement to include this approval within the previous cheque for £ 85.00 for the local authority fees in connection with the approval of the above Conditions.

I would be most grateful to receive your approval for the above.

Yours sincerely,

N [redacted]
