Subject: Re: Planning Application AWDM/0638/25 50 Rowlands Road Worthing - Approval of Conditions

Hi Jo,

I have checked with Operations and they have suggested that the bins are left in the rear courtyard. If the gate is unlocked or accessible to us, via code lock for example, then we can go in and collect them. Looking at that area of Nursery Lane, there isn't anywhere to present them in the lane itself that won't block access.

Many thanks,

Catherine

A condition of the planning permission requires details of bin storage to be agreed in writing. The attached plan proposes provision within the garden adjoining Nursery Lane. Will the Refuse Collection Team collect bins from Nursery Lane? Can these be left out in Nursery Lane on collection day, or will a dedicated space need to be created?
