Good afternoon,

Over 2 years has lapsed since this "project" began and it appears that the obvious lack of progress indicates that there are unaddressed issues outstanding.

As a resident in Mill Lane we regularly pass by this address and our way to and fro to the town. I find it incredible that the wide garden, which I assume is the proposed development, had in the meantime gone to rack and ruin.

There is rubble, white goods, fish tanks, wood etc, not to mention the lack of maintenance on the garden itself. There are brambles and bind weed everywhere, covering and extending over the public footpath. The one section of hoarding which is still in place, is unsightly and serving no purpose and is looking very unsafe. All in all the place in a disgrace and is impacting on this otherwise tidy neighbourhood.

I notice that the windows on the end wall of no 41 has now been removed and just blocked up, with solid blocks, with what appears to be no cavity, this might need to be inspected.

This overall planning seems to be experiencing more and more delays and amendments. I would appreciate your comments on both its progress and the latest developments with the build and as to the abandonment to the garden.

If these comments regarding the garden need to be forwarded to another department then I would appreciate your assistance.

Kind regards

Jane McCabe
