Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	We strongly object to the proposed plan due to loss of privacy to our property and neighbouring properties. - We did not oppose the original planning application ADC/0435/09 due to the first floor rear window being etched/obscured glass. The occupiers would be unable to see into our property and neighbouring properties and therefore not affect our privacy. The original structure did not have north facing first floor windows. The current structure has no resemblance of the original building. - We question why six years later the window should be permitted to be changed to clear glass. - The windows have in fact already been changed in July/August, 2016 to mirrored glass, thus enabling the occupiers to see out unnoticed, but from the outside we are unable to see them at the window looking out. - The proposal would affect us by way of looking into our kitchen, patio area and garden. It is impacting and seriously compromising our privacy contrary to the original planning permission.

Yours sincerely

Mark and Eleanor Peart
