Subject: Objection to street hub proposals

To: planning@adur-worthing.gov.uk <planning@adur-worthing.gov.uk>

Hello,

As a frequent visitor to these areas, I wish to lodge an objection to each of the following applications:

AWDM/0639/26

AWDM/0640/26

AWDM/0641/26

AWDM/0642/26

AWDM/0643/26

AWDM/0644/26

In addition to being unsightly street clutter the prominent location of the brightly lit screens on these busy street corners could be a distraction for drivers and cyclists, leading to accidents. They could also provide obstacles for those with mobility issues. Wallace Parade already has a digital advertising screen on the nearby bus stop, so why is another one needed?

The screens give off light in the blue spectrum which is uncomfortable for the human eye and not something that I would want to see when I am busy shopping. In addition LED lights have been shown to be harmful to insects.

Finally, this is the use of yet more electricity when we are all being told to cut back, for 'net zero' purposes. Please don't let these blots on the landscape take over our town.

With regards,
Paula Mitton
The Drive, BN11 5LN
