Hannah
I am the owner occupier at 63 Hillrise Avenue and have seen the online drawings of the proposed development at no 65. While I have, in principle, no objection to the development of a 3rd bedroom I have noted that the new window in the existing bedroom wall overlooking my property has no mention of type of glass to be used.
This window, with clear glass, will directly overlook my bathroom and toilet and will in effect give us total loss of privacy. The new window will be slightly elevated in a building on higher ground and will look down on us.
To be honest I am not happy about a new window in the wall which will give us noise and light pollution. At present there are no issues from either side which have this effect.
I will await your comment on the above.

regards
John White
