Comments Details

Commenter Type: Member of the Public

Stance: Customer objects to the Planning Application

Reasons for comment:
- Other
- Privacy Light and Noise

Comments: I would like to formally object to them above stated planning application. I feel that the use of this land for the stated purpose will increase noise, bust and as a result negatively impact the quality of my residential environment. I understand that the applicant has provided some form of mitigation to this but would want to better understand what this is and how effective this is deemed to be from an independent reviews perspective. In addition I would like to raise the following question. 1) Will the 'temporary' use of this land set a precedent that will allow a permanent application to be approved? Regards Ian Atkins
