This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals.

This application seeks the modernisation of clubhouse, to include extension, decking area, disabled parking and alterations to roof. The site is located on Victoria Road, an unclassified road subject to a speed restriction of 30 mph.

No alterations are proposed to the existing vehicular access arrangement. The proposals are not anticipated to give rise to a significant material intensification of use of the existing access point.

Provision for two new car parking spaces is proposed, including one disabled parking space. From inspection of the plans, the proposed parking bays appear suitably sized. On-site turning does not appear achievable, although this is the existing arrangement.

In summary, the LHA does not consider that this proposal would have an unacceptable impact on highway safety or result in 'severe' cumulative impacts on the operation of the highway network, therefore is not contrary to the National Planning Policy Framework (paragraph 115), and that there are no transport grounds to resist the proposal.
