Dear Mr Hone,

Please find enclosed the revised drawing for the kerb drop at the above address, I have also enclosed a copy of the quotation we will be using stating the composition of the permeable hard standing that we intend to adopt.

Although we will be incorporating a permeable hardstanding I understand your point about visual relief and would like to leave one area of planting to the right of the area as shown on the drawing if that would be acceptable to you.

Yours faithfully

[redacted]
