Dear Sir or Madam,

I write regarding the above planned works. I am the current owner of the neighbouring North Cottage on North Street. Our properties have stood side by side for many decades and whilst I am concerned about potential damage to the fabric of my Cottage during the works, I doubt that this will have any Impact on your decision to grant planning permission. I would however point out that there are nesting herring gulls on my flat roof. I respectfully request that planning permission be granted for the works to the roof of 56 West Street once the breeding season finishes later in the summer.

Yours sincerely,

Julia Stevenson
North Cottage
