Materials.

Walls and dormer cheeks: Slate tiles.

Roof: Flat warm deck.

Doors & windows: UVPC/Aluminium.

Hip to gable roof extension volume calculation.

$\frac{(8.2m \times 4.0m)}{2} \times \frac{4.0m}{3} = 21.86m^3$

Total for both ends = $43.75m^3$

Original line of hipped roof shown with red dashed lines.

Scale 0 1 2 3 4 5

Do not scale from drawing except for planning purposes.

All dimension are in millimetres.

No work is to extend over adjoining properties without express permission.

All designs are subject to a structural feasibility analysis.

Proposed conversion of loft to habitable space to include hip to gable conversion, roof windows to the south and north elevations and raising of chimney stack.
