Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	im writing to object to the above application on the grounds that the proposed integrated illuminated signage will significantly affect our resisdance. specifically: The proposed lighting will result in unwanted light spillage into our windows during evening and night hours, specifically into our bedrooms. the signage is not in keeping with the residential character of the area and introduces an unwelcome commercial feel the level and duration of illumation has not been stated which is even more of concern. The illumination may also affect drivers at night. we urge the council to consider the detrimental impact on neighbouring residents and recommend either refusal or strict conditions on illumation times, brightness levels and shielding.

the notice boards that are already up serve a valid purpose/ and do what they need for advertisments.
