Dear Mr Barnett,

**Re: Lychpole Farm**
**Sompting Lychpole Estate**

Further to our conversation last week regarding the prior notification application that we have submitted on behalf of the Sompting Lychpole Estate for the construction of a silage clamp at Lychpole Farm (ref. ADC/005/10), I am able to provide the following details which I hope will settle the concerns you raised on the siting of the barn.

1. The proposed silage clamp will be located centrally in the existing farmyard and therefore easily accessible to all the farm buildings.

2. The topsoil removed during the construction will be bunded around the building's elevations adjacent to the fields which will help it blend in and it will not be visible on the skyline.

3. Concrete access is already in place so no additional turning area which will add to the footprint would be necessary.

I would be very grateful if you contact me should you require further information and a site meeting with the farmer.

Yours sincerely,

[redacted]
