Members feel that Adur's Arbreal Officer should be consulted & his report studied prior to any decision being reached

AWDM/0117 – Lancing Sea Scout Group 79/81 Manor Road, Lancing.

Members are concerned to learn that a group of badgers reside on this land & under the existing hut. Whilst they feel it is imperative to support groups such as the Sea Scouts, they are also equally concerned about the badgers which as is well known are protected by law. Members feel that we should await any decision until such time a mutually satisfactory solution can be found. We would respectfully request that we are kept in the loop once such a solution has been found, when we will of course submit our recommendation.
