Dear Ms Barker

Planning application number: ADC/0432/09

Thank you for your letter of permission in relation to the above application dated 4 March 2010. Further to our brief conversation last week I would like to comment on one of the conditions noted in the schedule, ie number 3, referring to the eastern elevation of the conservatory.

Speaking with two potential contractors for this job, both have independently expressed that, in their respective opinions, the use of a solid PVC panel could cause glare, more in fact than say an obscure, tinted glass. Alternatively, a solid wall could be erected with top openers with obscure glass. The openers are merely to ensure the circulation of air. We have spoken to our neighbour who has no objection to either solution and in fact the preference is for obscure glass. The bungalow to the other side of number 89 already has a conservatory extension and this is 3-sided plain glass which our neighbour does not find obtrusive at all.

In view of the above I would ask that you reconsider this condition and allow either of the two options above. If you wish to visit again, please telephone and let us know.

We look forward to hearing from you as we wish to proceed as soon as possible with the conservatory.

Many thanks.

Yours sincerely
