Proposal, Site and Surroundings

The application refers to one Horse Chestnut Tree in the front grounds of Grasmere Court Wordsworth Road. The tree is a part of an established group of trees, which are part of in the street scene and make a contribution to the character and visual amenities of the area.

Consent is sought to crown lift to WSCC standard and crown clean Horse Chestnut tree T2.

The reasons for the works are primarily in the interests of safety, light issues and amenity value.

Consultations: None.

Representations: None received.

Planning Assessment

The tree is a large mature Horse Chestnut growing in the Southeast corner of the front grounds, adjacent to the public pavement and carriageway of Wordsworth Road, located between the access driveways to Grasmere Court and to the rear of properties in Rowlands Road. The tree is prominent to the area, and can be seen from many views.

This is a fully mature tree with a large main stem that divides at 4 metres into two substantial stems, which then each divide again from 4.25 metres to 8 metres. The crown of the tree begins at 2 – 3 metres from ground level with the main largest limbs relatively high on the tree. The main crown is dense and very wide spread with some slightly over extended laterals.

The proposed works are to crown lift to WSCC standard; up to 2 metres over the pavement and up to 5.5 metres across the carriageway, and to crown clean, which is removing deadwood and rubbing branches etc. The works are to allow access and allow more light and air to pass beneath the crown.

These works in my opinion would be relatively minor in relation to the overall size, spread and crown form of the tree and would not significantly or adversely affect its appearance, amenity value, or its contribution to the character of the area.
