WASTE MINIMALISATION STATEMENT

32 HAWKINS ROAD, SHOREHAM

The proposals for the above development will be to provide additional living accommodation and rearranged attached garage on a single level to the rear of the property with a minor reconfiguration of the current internal arrangement. This will be a flat roofed load bearing masonry building with a ground bearing concrete floor slab.

Resulting spoil from the excavation and reduce dug floor area will be recycled into the significant surrounding rear gardens in the form of localised landscaping.

Resulting hardcore brick rubble will be recycled for use as the floor slab sub base and soakaway filling material.

Existing UPVC windows will be reused where Building Control permits there use and the conservatory will be offered for sale once the necessary planning permission has been secured and the construction programme planned.

The extension essentially occupies an area currently undeveloped with the exception of the aforementioned conservatory.

Localised demolition waste from the garage roofing materials etc and builder's waste is expected to be nominal, the small amount of waste inevitably produced will be re-cycled where appropriate, through the licensed waste receivers, within the Shoreham area.
