Reasons for comment: - Other

Comments: Forest School provides children with valuable opportunities to learn through exploration, risk-taking, and hands-on experiences in nature. Having a dedicated outdoor space within a nursery is essential, as it allows children to develop confidence, independence, problem-solving skills, and a deeper connection with the natural environment. A well-planned Forest School area supports children's physical, social, emotional, and cognitive development while encouraging curiosity, creativity, and a lifelong appreciation for the outdoors. The children are our future and this opportunity should not be taken from them.
