Planning Statement

The school is planning to extend existing rubber mulch surfacing around a ground level tyre park. The area at present needs to be made more useful as it is muddy in the winter and dusty in the summer months.

The redevelopment will give educational value to our children and enhance the children's outdoor play time. We envision that the improvement to the school grounds can help raise achievement and self-esteem, improve behaviour and health, and help children and young people develop a wide range of skills outside.

The school has planned a well equipped, safe area for the children to learn, develop and enjoy.

Yours sincerely
Louise Swann
