15 December 2016.

Dear Dr and Mrs James,

Work to 303 Upper Shoreham Road

We have been in discussion with Adur District Council in respect of the work we would like to undertake over the garage to provide an extension to the first floor. The original plan was to have a flat roof over the bathroom, however, to gain planning permission Adur District Council has requested that the roof is pitched and consistent with the existing tiled roof. In addition they have we requested that we write to you to obtain your permission for that roof line and guttering to continue in its existing line over the extension over the garage.

We would be grateful if you could sign a copy of this letter as permission for the works to be completed.

Yours sincerely

[redacted]

Kevin and Alison Boram

We approve for the works to be completed
