Dear Peter

I have read the letter regarding my neighbours application for a single rear extension of which he had advised me of previously. I am not disagreeable about the extension itself but I am a bit concerned about the impact the terrace proposed above it may impact on our privacy, we do already both have balconies which is no problem but a larger terrace frequently used may mean we have no privacy at any time.....at the risk of offending my neighbours I am letting you know of my concerns, and leave it with you.

Best regards

Jenny Chatfield
