Subject: Speaking at dev cont meeting 7/12/09

Attn : Neil Terry
Ref: 23 Mill Rd, Extension to rear ADSC/0392/09

Dear Neil

My mother and myself were due to speak at Monday evening's development control meeting regarding the above application. I live at 25 Mill Rd, my parents at 25a Mill Rd. We are separate objectors to the planned extension in its current proposal.

Sadly, my mother is seriously ill in Worthing hospital with a brain tumor and therefore will not be present this evening. I myself will not be able to speak either as understandably I will be at the hospital at this difficult time.

Our previous letters and photographs covered most points and I would very much like it if they could be read to the committee. Lancing Parish Council recommended refusal for this extension and we would therefore like the control committee to consider our objections.

Perhaps the following paragraph could be read aloud to add to what we have already submitted on behalf of both my parents and myself.

'From every south facing window at no.25a Mill Road we look out onto the barn roof and additional extension roofing of no.23 until our kitchen window. This is the only south facing window where you can see sky and natural light comes in. If this extension is passed this will be lost completely unless a flat roof is used.

This will be the same for the kitchen/diner at no.25. This is the family room of the house where we already have floor to ceiling windows to let in as much light as possible into a relatively dark room.The roof line of the planned extension will completely overshadow the window allowing very little natural light to filter through. We have tried to show this with a couple of photographs sent in with our previous letter. Lancing Parish Council had recommended refusal for this application, I trust this committee will take our concerns into consideration.'

Yours sincerely

Kate Wallace - 25 Mill road
on behalf of Mr and Mrs Addison
