Re: Arboricultural Advice, Tree Preservation Orders.
Further to our site visits I can confirm the following.
**21 Farncombe Road, WB/07/1490/TPO** – supported.
**5 Rugby Road, WB/07/1439/TPO** – supported.
**Princess Gate, George V Avenue, WB/07/1503/TPO** – support lesser amount of pruning, namely reduction in total crown spread by up to 1m to growth points and removal of epicormic growth, crown clean.
**Southern House, Yeoman Road, WB/07/1409/TPO** – supported. Replacement planting with a small grove of, suggest Field Maple, further from the boundary fence would have significant amenity value adjacent to the rife and help to prevent further sycamore seedlings becoming established close to the boundary.
**Ridge Cottage, Mill Lane, WB/07/1437/TPO** – support crown lift to north and west sides up to 4m, by removal of low secondary branches back to primary limbs to BS: 3998.
**57 Hillview Road, WB/07/1437/TPO** – supported.
**Linkside, Links Road, WB/07/1481/TPO** – supported.
**Broadwater Hall, South Farm Road, WB/07/1471/TPO** – supported with exception of reduction of Norway maple at northern end of group as work is unnecessary.
