Additional neighbour notifications: N
Site notice: (wider publicity / conservation area): N

Proposal, Site and Surroundings

The application refers to a single large mature London Plane tree located in the open plan front garden of 18 Brierley Gardens. The tree is part of a group of trees that are a prominent part of the street scene and make a significant contribution to the character and visual amenities of the area.

Consent is sought to reduce crown height and radial spread to previous points and crown lift.

The reasons for the works are primarily in the interests of light issues, safety and amenity value.

Consultations: Letter sent to Lancing Parish Council who did not respond.

Representations: None received.

Relevant Planning History

2015: Adur Tree Preservation order Number 13.53/3/15(L) of 2015 confirmed on 28/09/15.

2016: Application for consent under Adur Tree Preservation Order 13.53/3/15(L) of 2015 to reduce radial spread and crown height by up to 2 metres to one London Plane tree T1.

Planning Assessment

The London Plane tree T1 is a large tall early mature tree, growing in the front garden to the north of 18 Brierley Gardens. The front gardens of Brierley Gardens are uniformly low level open plan lawns with connecting footpaths. The area of lawn in which the Plane tree T1 is growing was formerly believed to be owned and consequently maintained by West Sussex County Council.

The tree has a mostly upright habit and has been formatively pruned to produce multiple stems from 4 metres, which form a tight array. The tree has main scaffold limbs which are mostly clear to 6 metres, where they divide again. The main crown is dense and wide spread with some slightly over extended laterals, and some lower hanging tertiary branches.

The proposed works are to reduce crown height and radial spread to previous points (up to 2 - 3 metres) and crown lift up to 4 metres. The works are to contain the size and spread of the tree and allow access beneath the crown.

These works in my opinion would be relatively minor in relation to the overall size, spread and crown form of the tree and would not significantly or adversely affect its appearance, amenity value, or its contribution to the character of the area.

Recommendation

APPROVE

Grant Consent, subject to the following Conditions:

1. Approved plans

2. The proposed works, hereby permitted, shall be restricted to those specified in the application only unless otherwise agreed in writing with the Local Planning Authority and carried out within two years from the date of consent and in accordance with the British Standard BS 3998: 2010 Tree Work.

   Reason: *In the interest of visual amenity.*

Is recommendation contrary to letter(s) of representation?

No
