Dear Sir/Madam,

Regarding: AWDM/1840/15

I would like to support the application for additional nursery spaces for children, I currently work for LittleSaurus Nursery and am also a local resident of Shoreham, and can honestly see the huge benefits of providing nursery spaces for children.

Our nursery is involved in the community of Shoreham and takes part in local events, fundraising, raising awareness etc. these events provide an opportunity for families to get to know each other, to link up for support where needed. Being able to offer this to more families in the area will only have a positive effect.

The children who attend our setting also benefit greatly, by being exposed to community life, making friends, school readiness etc.

If you would like any more information, please do not hesitate to contact me.

Yours sincerely,

[redacted]
