Comments:	I am in receipt of your notice regarding this application and also 1729/18 to which this comment also applies. Flint stonework is an important part of our heritage particularly in Shoreham. For the applicant to reveal and restore a fine example of this receding craft is to be applauded and encouraged. The removal of the rendering n no way conflicts with the listed status of the area and indeed adds to it. Further as the only neighbour with direct views of the subject frontage from my property I confirm I have no objections to the any of the works and consider they are addition to the visual amenity of the area.
