**Re; APP/Y3805/A/13/2203185 – 25 Riverside, Shoreham-by-Sea, West Sussex, BN43 5RU**

Our objections stand as per previous objections to the council. Although planning application was once, many years ago, granted to the applicant, it became clear when the applicant re-applied that the plans had been accepted based on incorrect & inaccurate plans and measurements which is why it has been refused several times since.

The proposed development is simply much too close to us (12 meters from principal windows) and would be extremely detrimental to our living conditions. This fact has not changed in any of the many amended plans the applicant has submitted over a period of seven years.

I would like the Inspector to view the site from our property if possible, to help understand just how obstructive this new development would be to us.

Please can we have a copy of the decision letter.

Yours faithfully

Riika Finch
