Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

Listed Building Consent and Full Planning Permission are sought for the like-for-like replacement of two existing timber vertical sliding sash windows serving Flat 5.

The replacement windows will be traditional timber vertical sliding sash units, designed to replicate the existing windows in terms of opening size, proportions, glazing pattern, sightlines and external detailing. The existing window openings will be retained, ensuring no alteration to the established façade composition or the building's contribution to the surrounding streetscape.

The new windows will be manufactured in Accoya (acetylated timber) for durability and long-term stability and will be paint-finished externally to match the existing colour (white/off-white). They will be designed to be like-for-like in external appearance, including matching existing opening sizes, proportions and sightlines, glazing bar arrangement, and external detailing and profiles.

Heritage-appropriate glazing is proposed to improve weatherproofing and thermal performance while retaining a traditional sash appearance. Slim-profile double glazing (4–6–4) is proposed, carefully detailed to preserve slender glazing bars, traditional sightlines and external visual proportions.

No changes are proposed to surrounding masonry, structural elements, internal layout, or decorative features, and no alterations are proposed to the size, shape or position of the existing window openings. No change of use is proposed.

The works are intended to support the continued maintenance, weather-tightness and long-term conservation of the listed building while safeguarding its historic character, using appropriate traditional materials and methods in accordance with conservation best practice.

Has the work or change of use already started?

- ☐ Yes
☒ No

Existing Use

Please describe the current use of the site

Residential use as a self-contained flat (Use Class C3). The property is currently unoccupied but visited regularly.

Is the site currently vacant?

- ☒ Yes
☐ No

If Yes, please describe the last use of the site

Residential use as a self-contained flat (Use Class C3), occupied until 9 January.

When did this use end (if known)?

09/01/2026

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated

- ☐ Yes
☒ No

Land where contamination is suspected for all or part of the site

- ☐ Yes
☒ No

A proposed use that would be particularly vulnerable to the presence of contamination

- ☐ Yes
☒ No

Materials

Does the proposed development require any materials to be used externally?

- ☒ Yes
☐ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:

Windows

Existing materials and finishes:

Painted timber vertical sliding sash windows of traditional box sash construction, with timber frames, sashes and slender 23 mm glazing bars, set within existing window reveals.

Proposed materials and finishes:

Painted timber vertical sliding sash windows of traditional box sash construction, with timber frames, sashes and slender 23 mm glazing bars, set within existing window reveals. Traditional timber to be manufactured in Accoya (acetylated timber) for durability and long-term stability. Paint-finished externally to match the existing colour (white/off-white). Designed to be like-for-like in external appearance, including matching:

- Existing opening sizes - Proportions and sightlines - Glazing bar arrangement - External detailing and profiles - Fitted with slim-profile double glazing (4–6–4), selected specifically to improve thermal performance while retaining a traditional sash appearance - No changes are proposed to the surrounding masonry, structural elements, internal layout, or decorative features. The works are intended to ensure the continued maintenance, weather-tightness and long-term conservation of the listed building, while safeguarding its historic character. The proposed replacement approach is minimal and sympathetic, as it retains the historic window pattern and avoids any alteration to the original openings or the external appearance of the building. The use of Accoya timber provides an appropriate high-quality material for listed building repair and replacement, offering improved resistance to decay and reducing the likelihood of future interventions. Overall, the proposal will preserve the building's architectural significance, with negligible visual impact on the listed building and no harm to the character or appearance of the surrounding area.

Are you supplying additional information on submitted plans, drawings or a design and access statement?

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
- ☐ Yes, on land adjacent to or near the proposed development
- ☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
- ☐ Yes, on land adjacent to or near the proposed development
- ☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
- ☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:

The proposal relates solely to the replacement of existing windows within an existing dwelling. No works are proposed to external land, trees, roofs or habitats, and there will be no loss or alteration of on-site habitat. The development is therefore below the de minimis threshold and the Biodiversity Net Gain requirement does not apply.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Foul Sewage

Please state how foul sewage is to be disposed of:

- ☒ Mains sewer
- ☐ Septic tank
- ☐ Package treatment plant
- ☐ Cess pit
- ☐ Other
- ☐ Unknown

Are you proposing to connect to the existing drainage system?

- ☐ Yes
- ☒ No
- ☐ Unknown

Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste?

- ☐ Yes
- ☒ No

Have arrangements been made for the separate storage and collection of recyclable waste?

- ☐ Yes
- ☒ No

Trade Effluent

Does the proposal involve the need to dispose of trade effluents or trade waste?

- ☐ Yes
- ☒ No

Residential/Dwelling Units

Does your proposal include the gain, loss or change of use of residential units?

- ☐ Yes
- ☒ No

All Types of Development: Non-Residential Floorspace

Does your proposal involve the loss, gain or change of use of non-residential floorspace?

Note that 'non-residential' in this context covers all uses except Use Class C3 Dwellinghouses.

- ☐ Yes
- ☒ No

Employment

Are there any existing employees on the site or will the proposed development increase or decrease the number of employees?

- ☐ Yes
☒ No

Hours of Opening

Are Hours of Opening relevant to this proposal?

- ☐ Yes

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
