In answer to your letter regarding this property I live opposite to this and have had times when my son has had to go and complain
The light shines into our bedroom and the early noise of deliveries has woken my son many times People going into the garage late and talking starts the dog off we can't have that all through the night Not only for me but for neighbours also will be complaining
There are often cars getting stuck in car wash hooting noisily
This should never had been built in the first place as their are houses down the side and the back of this
Property and my house and small block of flats facing it I can see no reason why it needs to stay open 24 hrs
Sincerely Jean luff
