Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Reasons for comment: - Privacy Light and Noise

Comments: I object to these hours, they are unreasonable. Its bad enough allowing Saturday mornings.

I do not expect us to put up with a business that is open 7 days a week on our back garden. When we get in from work during the week (or weekends), it is nice to sit out in the garden and relax. It is a real invasion of our privacy allowing the business to go ahead in the first place. The building is <1m from our fence line (not sure if this is to even building regulations?)

The noise/disturbance caused by the chatting from the building can be heard as it is, which in turn causes the dogs to start yapping and barking (including setting off the neighbouring dogs).

The lighting from the 3D shed is an eye sore and when accidently left on, shines through the blinds into our rear bedroom window. So when it is proposed to still be on at 20:00 this will not be pleasant for us and is totally unreasonable.

We really do not appreciate strangers looking into the bedroom window at the moment.
