16th November. 23.

Dear Madam

Planning Application: AWDM/1381/23
12, Hythe Road, Worthing.

I fully support the retrospective application for planning for 12. Hythe Road.

Over years the property has been an 'eyesore' the new owner has transformed the property to the highest standard.

There can be no reasonable objection to the change as it is now. Every house in the road is different and that is what makes it attractive.

Number 12 as it is has vastly improved the road and to oppose the application as it stands would meet the absolute approval of all the residents as it stands.

At last somebody has done a brilliant job to the delight of residents and it is another individual property to add to the delight of those in Hythe Road. which I have done for the past forty five years.

Yours faithfully.
