Comments Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Reasons for comment: - Privacy Light and Noise

Comments: I strongly object, again.

I am not sure how many more times I, and other local residents, have to object to these opening hours before the owner and council understand we do not want these opening hours extended any more. The last application was met with heavy objection, however, less than a month later another application is still put through which to me is concerning.

The lights from the petrol station are extremely bright and shine right through my window which disrupts my sleep. If these new opening hours are passed it will mean I will get even less sleep than I already am.

This is a residential area with children and elderly residents living here, along with those who work long hours during the day. Each and every one of us are entitled to a peaceful evening and a good nights sleep, if these hours are extended it will disrupt leisure time as well as our time to sleep, causing us to go to sleep later and wake up earlier and that would not be fair on us as this is a residential area,

not an area suited for a long running petrol station.

There will be added noise from vehicles along with the flood lights, beam lights and shop lights will add high disturbances to local residents and we all strongly object.

I hope the council does right by its residents and objects this application and blocks any further ones from going through. We have to put local residents first, not big businesses looking to profit further at the expense of others.
