Reasons for comment:	- Privacy Light and Noise
Comments:	Planning Application AWDM/0170/24 7 Shepherds Mead, Worthing, BN140JA We would just like to make the following comments about the proposed and existing windows to the west facing rooms under the category of possible disturbance. We note that there would appear to be a skylight above the kitchen/dining room in the new ground floor plan. If this does not extend above the roofline, we have no objections. However, if this

is to be a 'lantern style' skylight (i.e. protruding above the roofline), we would ask that no lights be visible from our property. This would mean installing any lights below the roofline or installing them elsewhere in the room.

We would also ask that the owners provide window coverings for the new kitchen/dining room and lounge (i.e. blinds or curtains) to prevent light being directed at the back of our house. As the nights are very dark (there are few street lights) this light pollution can be very annoying.

Otherwise, we have no other comments to make about the alterations.

Many thanks.

Kind regards
