PLANNING SERVICES

Re. Amberley Court.

Dear Sirs

I am the owner of 31A. Freshbrook Road, as the building has been erected. I wish to make the following statement.

After being told it was for an Electric Buggy store, by a resident, I rang building control, and asked if it was allowed to

PTO

Erect up against the fence, because the slab was right to my boundary.

The Gentleman told me he knew nothing about it, and if Electricity was involved, he thought it should have been sent to planning.

While talking to the manageress I informed her of the information given to me by building control, She told me it was wrong they did not have to inform the council.

I told her it should be further away from.

PTO

my Boundary, so I could make any necessary repairs to my Fence; I wish to object to the existing building for safety reasons.

If it is allowed to go through as it is I request the back should be fire proof.

Yours.

Sincerely.
