5th June 2013

Dear Sir,

With reference to your the letter recieved 30th May regarding planning proposal for 55 Upper Kingston Lane, Shoreham-By-Sea, West Sussex BN43 6TG, we have the following concerns.

The design of the building with a very high pitched roof is right across the bottom of our garden with a window view overlooking into our garden thus invading our privacy.

We are also concerned that the building has been built (so far) is too close to the border line, where the lower end of the pitched roof is in fact level with our border line.

Yours Sincerely Re; Owners of above address.
