Ref: AWDM/0163/20

Although I have no objection to the extension as proposed, I believe that there is some relevant background.

This application refers only to the latest in a series of additions to the property which have taken place over the last three years, without reference to the council or us. These are not shown on the plans submitted with this application.

Two of these are visible from the front. The larger is an extension on the West side southwards for approximately 2.5 m. The smaller is the addition of a porch to the South, approximately 1.5 m long. Both are of concrete block construction.

(Removal of rendering to the Southern façade of the building, revealing common bricks, does not enhance the appearance of the building.)
