Subject: Application AWDM/0308/13; 41 Mill Road Lancing

Dear Sirs,

I have examined this application, the site and the trees in question.

Although not an expert, it seems to me that:

1. The trees in question, although large, are not of a local species, or of great visual/amenity significance;
2. The proposed works would improve the amenity of the applicants and would cause no significant harm for the area in visual terms.

I therefore support the application.

Yours faithfully,

A J R Allen, Southerly, Mount Way, Lancing, BN15 0QD
