Dear Mr Barnett

Thank you for your email. It appears that I am not the only resident confused by there being 2 references on the application. Mr D Hemsley has made a representation on 14 May 2012 in respect of the current application and this has been included on the documents for the previous application.

Subject to the rear sun shade of the property remaining unchanged – the solar panels being sufficiently at the front of the property – I have no comments to make. If the rear shade of the property is increased then perhaps the angle of the "A" frames being used might be decreased to lower their profile. I can well understand the concerns of the residents to the side of the property and hope that you will transfer Mr Hemsley's representation to the current matter under consideration.
