Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Reasons for comment: - Loss of General Amenity

Comments: The recent development to La Galleria in terms of the blue lighting scheme at all levels of the building and the over-bearing signage, represents a major visual impairment not only to the building itself, but to the whole of the Conservation area of East Street. It is very important that buildings in the Conservation Area have a low visual impact and do not impinge on the architecture in the street, especially St. Mary De Haura Church. Every other business in the street largely abides by the rules of the Conservation Area, so why can't La Galleria?
