Stance: Customer objects to the Planning Application

Reasons for comment: - Loss of General Amenity

Comments: The signage and blue lighting is overbearing at all levels. A precedence will be set if illuminated lighting of any kind is allowed and I hope that the planning committee understands that if permission was granted anybody in East Street would be able to have illuminated lighting in the future. In all the years that I have traded in Shoreham (almost 40), I have always been mindful of the need to keep to the strict conservation rules which gives the town it's special character. There is little point in having a designated conservation area if it is going to be ignored.
