RE: Application appeal for The Signal Post, 79 Rowlands Road, BN11 3JN

To whom it may concern,

I live and operate my business from Milton Street, Worthing. The back of my property is directly behind The Signal Post and I frequent the business regularly with my family. I would like to express my strong support for their application to allow for outside seating.

Since they have been open, my neighbourhood has seen a significant reduction in criminal behaviour. Previous to their opening I suffered several cases of vandalism and theft to my Van and witnessed a great deal of drug use and drunken antisocial behaviour in the local area. Since The Signal Post opened I have benefitted from the security of them being on site, their CCTV and security lights and have never once been disturbed by any noise made by them or their customers.

The team that work at The Signal Post are community orientated people and excellent neighbours. I know that they will manage the proposed seating with great care and dedication to the residents around them. I also look forward to benefitting from them as a customer myself in the summer months!

Kind Regards,

Niall Rhodes
