Dear Eve,

Re above application, listed are my concerns.....

188 cm is distance wall to wall (not three metres). My soffit extends to the separating fence panel with trellis above.

Raising of height of wall of Shearings would inevitably have impact on overshadowing, loss of light and possibly privacy.

Development would dwarf houses either side of Shearings.

Any building work so close to my property would cause considerable disruption and noise, and my grandson (4) sleeps two nights a week in the room potentially most affected.

I should like these points to be taken into consideration re planning application.

Thank you
