Commenter Type: Neighbour

Stance: Customer made comments neither objecting to or supporting the Planning Application

Reasons for comment: - Other

Comments: The revised plans take into account our previous concerns about maintaining our privacy. However I want to express my concerns that the garage roof will be used as a social area because the patio steps would now run alongside the garage and their original request for the raised patio to replace existing garage was declined. This of course would create the original problem of lack of privacy.
