Good Morning,

Whilst we do not have any objections to the application, general observation below:

If there is a proposal to put up 159 new flats with only 85 associated parking spaces, in an ever more congested town centre the question that may be posed from residents is where are people going to park.

Potentially, during the daytime it won't be too bad as people will be at work and may take their cars. However, in the evening / overnight parking complaints tend to increase when our officers are not available due to the time of the evening.

Kind regards

Jason
