Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	I am very concerned about the proposed front dormer extension and how this will lead to loss of privacy for my family and us being severely overlooked. As we live directly opposite number 12, the proposed plans would result in the upstairs front dormer extension overlooking all the main living areas of my house. The dormer windows would look into my kitchen, my lounge/diner (which runs from front to back of my house) and also the main bedroom. All other properties in the immediate vicinity that have extended into the roof have velux windows facing North which do not intrude on the privacy of the residents opposite them. The only extension with a front dormer consists of a small dormer with frosted glass windows and this property is opposite a single story bungalow and maintains their privacy.

This proposed development compromises the privacy of myself, my husband and my children and will overlook all main living areas of our house.

Kind regards
