Dear Elaine,

Please accept this as an objection to planning application AWDM/0886/18. I have a very big concern regarding the side window of this extension. Not only will it be over looking it will be a loss of privacy for us. I believe this due to the fact their extension will be coming out 6metres where ours is only 5metres & this is because our orgenal plans were first rejected. And the fact their house is higher up than ours which will make it even more able to overlook us. We are on very good terms with our neighbours but I have expressed my concerns to them about this side window overlooking and ~~losing~~ our privacy. I feel stepping out of our back doors & having a window right by the side of us is a complete lose of privacy especially as we are on a lower slope edge. ~~We~~ Please accept this letter as a formal objection I will look forward to hearing from yoursely onee

My objection has been looked into.

Yours faithfully.
